

Muhammad Husnain

Machine Learning & Deep Learning Enthusiast

Aspiring Data Scientist and Deep Learning enthusiast with hands-on experience in real-world AI projects. Skilled in designing and implementing predictive models, neural networks, and computer vision systems. Passionate about turning complex data into actionable insights and building intelligent solutions.

Skills & Strenghts

Programming & Tools: Python, Jupyter Notebook, Google Colab, Git/GitHub, SPSS

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras

Techniques: Supervised & Unsupervised Learning, Regression, Classification, Clustering, Neural Networks, CNNs, Image Classification

Data Handling: Data Cleaning, Feature Engineering, Exploratory Data Analysis, Model Evaluation, Statistical Analysis

Projects

Handwritten Digit Recognition

Technologies: TensorFlow, Keras, Image Preprocessing

Real-Time Hand Sign Prediction

Technologies: TensorFlow, Keras, Image Preprocessing

Weapon Detection System

Technologies: TensorFlow, Keras, Image Preprocessing

Emotion Detection System

Technologies: TensorFlow, Keras, Image Preprocessing

Traffic Sign Recognition System

Technologies: TensorFlow, Keras, Image Preprocessing

COVID-19 Death Prediction

Technologies: Pandas, Scikit-learn, Data Analysis

Contact Info

Faisalabad, Pakistan

Education

University of Agriculture, Faisalabad.

BS Computer Science

2023-Present(6th semester)

Punjab College, Samundri.

Intermediate Pre-Engineering

2021-2023

New Afaq High School, Samundri.

Matriculation

2019-2021

Experience

Machine Learning & Deep Learning Trainee – Career Institute, Faisalabad

Worked on CNN-based computer vision projects, including hand sign prediction, emotion detection, and weapon detection. Gained hands-on experience in data preprocessing, model training, and real-time prediction system

Certifications & Courses

Machine Learning

Career Institute, Faisalabad

Data Science Internship

Career Institute, Faisalabad
